

We live in the country outside of Charlottesville Va. The local NBC affiliate WVIR was sent a waiver on Dec 17,2000. It was denied by WVIR. We have spent 600.00 on a tower an antenna and an amplifier and the signal just does not exist.We have a consultant electrical engineer who has verified this. This is in violation of your rules.  
Please respond or contact WVIR to resolve Pulling their licsense would be appropriate.
